CAUTION - EXTERNAL:

Good afternoon Judge Furman,

My name is Kathy Lewis and I applied for the settlement in the GM Ignition Switch Settlement and I understood you to say that the administration needed to follow court orders and complete everything by the deadline July 19, 2021.

I have contacted the administrator several times and she stated that she doesn't need additional documents from me because she has everything that she needs, yet she continues to move the date out further which has caused concern that this is nothing more than a scam!?

I had several vehicles that I experienced complications with but only had 3 of those vin numbers to register but knowing that GM knew of the issues and the dealership refused to repair it because it "wasn't covered under warranty" has really upset me and I probably won't get all of the money back that I lost because I have never been in a class action law suit to know that the attorneys are really the only ones receiving the most, but since I didn't opt out, I would like to know just how much that I might get back.

I would like to know if this is just a scam and if it's not, how is the administrator able to keep pushing the date out for the checks to be sent out?

Sincerely,

Kathy Lewis
